

The Ring 96, Victor Cohn, Magic Estate Sale (Episode 9)

Want to learn some new magic? Want to buy some new magic? Victor Cohn, a long time member and good friend to Ring 96 has left his magic collection for us to sell. The money brought in from these sales will be split in half between Ring 96 and a kids Summer Camp that Victor liked to support. The share that Ring 96 keeps will help offset our monetary reserve which is dwindling since we are not taking in the cash flow from the raffle that we usually do. So, anything you purchase here will help support your club.

To make a purchase, e-mail Ring Secretary Cliff Gerstman at cliff37@verizon.net The "winner" of the item will be either the first one to make the request or, if you really love Ring 96, the highest bidder.

Most if not all of these items, and those to be posted in the future, are too big, or too heavy or too expensive to mail, so we will have to meet either at my house in Long Beach, or at an agreed upon location. I will be wearing a mask, please do the same.

Payment options: **Prefer checks made out to "Ring 96."** If that does not work for you, we can talk.

Abbot's Tear Apart Box

New = \$144. Here \$80

This classy handmade box of strongly constructed wood, can be used to make objects appear or disappear!

Show the base of the box to be empty, then insert the slim front, back and side walls of the box. Finally place the lid on it and immediately produce glasses, bottles, silk streamers, silks, spring bouquets, candies or even a dove from the box!

You take the blank frame and glue or tape the pattern paper of your choice. This will turn this frame into a beautiful box that looks strong and real.

The box can also be used to make items disappear, including livestock.

Size: 10" x 8" x 5" (l 26 x w 20 x h 13 cm)

\$35 Back to the future!!

The magician explains that he has made a prediction of an event yet to happen. He shows a leather wallet containing this prediction. Any spectator from the audience is invited to deal through a deck of cards face up, one at a time. The spectator may stop dealing at any time, or change his mind and continue dealing.

When the person is satisfied that he has randomly selected a card, the wallet is opened and an envelope is found inside. The envelope is removed from the wallet and immediately opened to reveal a single card to be the matching card! Totally self-contained; has about a two minute learning time.

Decepten \$5

Ten number cards are fanned; The performer states that he has ten numbered cards, running from number one to number ten, and that some are face up and some are face down. Have the cards been arranged to try and influence the spectator's decision? Is there a number which appeals to more people than others? Why do some people consider some numbers to be lucky?

The spectator is told to concentrate on the slip for a moment. They are told that they are about to take part in an experiment in numerology. They should name any number from one to ten.

The number is called and the corresponding card is revealed. The prediction is opened by the spectator and it matches exactly!

Upside down world \$10

An exciting variation of out of this world

Alien Autopsy

Alien Autopsy by Jim Pace & Steve Dobson Four differently colored alien faces appear and disappear \$10

one at a time between pictures of earth and space. Then, with a wave of the hand, the four cards with aliens change to four "green immigration cards" - which then magically change into the aliens again, this time all...

No. 1 Hole \$20

Offer to realize the impossible -- to cause the passage of his card through the label without damaging it. An undisputed impossibility! The passing of solid through solid!

Pavel's Krazy Knot \$15

A length of rope coiled twice around the performer's neck passes visibly through. Second time the rope penetrates the neck the knot is formed in the middle. It's crazy! The

performer ties another knot above the first one, then another, and another, until a large bundle of knots is formed.. Unexpectedly, the big knot detaches from the center of the rope and falls off. The performer is left with just a short piece of rope between hands.

Kids Kards \$5 Sold

With the brand new deck, a mind reading effect is demonstrated and proves a hit! Then, wracked with guilt at changing the beautiful gift into a model of magical conformity, the magician reverses the process, changing the cards back into the deck he started with - simply illustrated cards.

Instant Collector's Item

\$20

An unopened DVD

Jumbo 3 Card Monte

\$10

More Parlor sized than jumbo, this trick is still a rocker!

Ultimate Card Warp \$5

Two Cards are shown, let's say the red Seven of hearts and the blue eight of hearts. The Red seven is folded in half and the blue eight is folded lengthwise. The seven is placed inside the eight and turned back inside-out.

The eight is passed through the seven and magically changes into the seven!

Now the eight is the red card folded in half and the seven is the blue card folded lengthwise.

The eight is now placed inside the seven and turned inside-out.

Dots Impossible \$5

Three cards with blue dots and three cards with red dots are freely shown. One blue card is placed between two reds and one red dot card is placed between two blues. With no trick moves the red cards are back together and the blue cards are back together. The

trick is repeated with four cards and then only with two cards. Each time, the spectator's are completely baffled!

Booklet and Deck \$10

Stage Money

\$25

This money is not real. However, it looks close enough to be useful in magic effects or as stage money. A generous supply of ones, fives, tens, twenties, fifties and hundreds.

\$10

\$5 Disolving Aces

The effect is done with just the four aces. They are not gimmicked in any way. The rest of the deck is set aside. Only the four aces and your two hands are used. Show four aces front and back and freely count them. A little squeeze and one ace vanishes, leaving three cards that are dealt out. Show three aces, square them and give the packet a squeeze. Now there are just two aces left in your hands. The last two aces are shown very freely and placed between your palms. Another squeeze and only one ace is left. Squeeze the last ace between your hands and it too vanishes leaving only two empty hands!

Dick Barry's Favorite Card \$10

A spectator is asked to name his/her Favorite Card out loud. You state that you also have a Favorite Card. Spread the deck: your card is the only card in the deck with a different colored back. When your card is turned over, it is found to be the same card your spectator mentally selected! (No rough and smooth, or sticky cards or sleight-of-hand required.) Comes with a Bicycle deck.

Six Card Repeat \$10

This card trick has become a classic.

A purely mechanical version that's as easy as it is mystifying. Six cards are counted from hand to hand and then three counted on the table. You should have but three left in your hand. But, no - strangely enough, you still have six! This is repeated five times and each repetition brings mounting amazement!

Well made of standard Bicycle poker cards and a complete routine is supplied. Absolutely no skill or sleights.

\$10 Dekronomicon

A baffling effect where a card only thought of, and a random number come together to find an impossible chosen card.

\$10 Twist & Turn

This effect is John Fedko's version of the Dai Vernon classic, Twisting the Aces. Comes with cards and instructions.
