

The Ring 96, Victor Cohn, Magic Estate Sale (Episode 16)

Want to learn some new magic? Want to buy some new magic? Victor Cohn, a long time member and good friend to Ring 96 has left his magic collection for us to sell. The money brought in from these sales will be split in half between Ring 96 and a kids Summer Camp that Victor liked to support. The share that Ring 96 keeps will help offset our monetary reserve which is dwindling since we are not taking in the cash flow from the raffle that we usually do. So, anything you purchase here will help support your club.

To make a purchase, e-mail Ring Secretary Cliff Gerstman at cliffg37@verizon.net The "winner" of the item will be either the first one to make the request or, if you really love Ring 96, the highest bidder.

Most if not all of these items, and those to be posted in the future, are too big, or too heavy or too expensive to mail, so we will have to meet either at my house in Long Beach, or at an agreed upon location. I will be wearing a mask, please do the same.

Payment options: **Prefer checks made out to "Ring 96."** If that does not work for you, we can talk.

Wide Open \$10

From Gary Ouellette, a self working trick using a proton deck and based on a Paul Curry principle.

Eye Exam \$5

Performed as a packet trick with the theme of a vision test, a four of a kind is shown. The spectator is asked which card was face down, none. The cards are shown and Heart is face down.

SOLD

card was face down, they say, The cards shown and Heart is face down. One at a time the remaining cards turn face down (showing a red back). Then all the cards are face up again. To test their color vision, they are asked to name the back color of the cards (red). All the backs are seen to have blue backs. To test their vision

\$10 Changing Canister

This antique looking canister has a diabolical secret to it. You can change one load to another with no one the wiser as to how. A very clever and cunning little trick.

McCombical Decks \$5

The performer calls one volunteer to the stage. He and the audience are shown two decks of cards. The performer concentrates on one deck of cards, removing one card from the deck, claiming this card is predicting what card will be chosen from another deck. He shows the prediction card to the audience, who see the card is black. The performer brings out the other deck; the one the volunteer chooses from. The performer shows this deck to the audience only, who see that this deck is an entire deck of cards that match the prediction card! The volunteer is asked to say, "stop" while the performer removes one card at a time from the top of the deck and places it on the bottom, showing each card to the audience as he does so. The chosen card is slipped into the volunteer's hand, and he names his chosen card. To the performer's dismay, the chosen card does not match the black prediction card, or any of the cards in the forcing deck. The performer studies the chosen card, baffled. However, when he picks up the prediction card, the audience finds that the prediction card has changed, and now is the same as the volunteer's chosen card!

Kontrol Keys \$15

This is a regular looking padlock, but gimmicked in an ingenious manner, along with several keys. Any of these keys can be made to open or not open the lock. It does not matter whether the performer or a spectator tries to open the lock, it will open or not open when handled as described. Inspired by Anneman's "Seven Keys to Baldpate", this is a completely mechanical version.
